

IN THE CLAIMS:

Please cancel Claims 3 to 10 and 12 to 27, without prejudice to or disclaimer of the subject matter recited therein.

Please amend Claims 1 and 2, as follows.

1. (Currently Amended) An apparatus for capturing a photographic image, storing the captured image in a buffer memory, ~~an image storage device~~, reading the image stored in said buffer memory, ~~image storage device~~, and recording the read image on a recording medium, said apparatus comprising:

a bar-type indication display device for indicating on a display an adjustment value of exposure before shooting ~~a remaining number of images which can be stored in said image storage device~~; and

a control device for controlling said display device to change the display within a predetermined period of time after the shooting according to a remaining number of images which can be recorded on said buffer memory ~~recording medium~~.

2. (Currently Amended) An apparatus according to claim 1, wherein said control device causes said display device to display the remaining number of images which can be recorded on said recording medium when the remaining number of images which can be recorded on said recording medium is less than the remaining number of images which can be stored in said buffer memory ~~image storage device~~.

Claims 3 to 10 (Cancelled).

11. (Original) An apparatus according to claim 1, wherein said apparatus comprises an image pickup apparatus.

Claims 12 to 27 (Cancelled).
